1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

### Identification and Ownership (Page iv)

July 9, 1998

Mr. Harvey Simon, Chairman  
Leroy Sanitary District #1  
W3022 County Road Y  
Lomira, WI 53048-9400

1997 Analytical Review DWCCA-3125-PJL

Dear Mr. Simon:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. As of today's date our office has not received a response to our letter of July 30, 1997, concerning our review of your 1996 annual report. Please provide your response at this time.
2. During our review of the identification And Ownership page we noted that you did not provide the utility address. Please provide this information in the future because, though the Commission has this information on file, this is how we are kept informed of any address changes.
3. As requested at the bottom of the Identification And Ownership schedule on copy 2 of page iv, please provide the names of the members of the utility commission.
4. Please note that in the future, the special assessment receivable which you reported in account 143, Other Accounts Receivable on line 22 of the Balance Sheet End-Of-Year Account Balances schedule on page F-18 should be reported in account 124, Other Investments.
5. Please provide a revised copy of the Return on Rate Base Computation on page F-19 noting that the Utility Plant In Service number on line 1 should be the average of the first of year and end of year balance.
6. During our review we noted that while you report 980.00 on line 10 of account 474, Other Water Revenues, on page W-4 which you explained as public water purchases, you did not report Other Water Revenues on line 3 of our copy of the Water Operating Revenues & Expenses schedule on page W-1. Please explain and provide any related annual report corrections.
7. Please provide the Account Charged or Credited, column (c) of line 2 of the Unamortized Debt Discount & Expense & Premium On Debt schedule on page F-11.

### FINANCIAL SECTION FOOTNOTES

8. Please explain why there is no PSC Remainder Assessment reported on line 4 of Account 408, Taxes on page W-6.

9. During our review of the Water Utility Plant In Service schedule on page W-8, we noted that based on the first of year and end of year numbers for account 325, Electric Pumping Equipment on line 17, it appears that 23,585 should have been reported in column (c) as additions during the year. Please confirm and also explain what the addition was.

10. Please provide the cause of the maximum, line 23 of the Source Of Supply, Pumping And Purchased Water Statistics schedule on page W-10.

11. Please provide the street address, column (a), for the well reported on line 1 of the Sources Of Water Supply - Ground Waters schedule on page W-11.

12. During our review we noted that while you report 117 customers in column (b) of the Water Operating Revenues-Sales of Water schedule on page W-2, you only report one service on line one of the Water Services Schedule on page W-15. The utility owned portion of a service is that part of the system from the water main to the curbstop and box. Therefore, you should be reporting a service for each customer. Please provide a corrected copy of the Water Services schedule on page W-15.

13. During our review of the Hydrants And Distribution System Valves schedule on page W-17 we noted that you did not provide the number of distribution system valves end of year. Please provide that number at this time.

14. The Commission is now using a computerized system to build an annual report data base. It is, therefore, important to have a complete and correct annual report. The following changes have been made in our copy of your annual report. Please confirm these changes or indicate the necessary corrections:

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.
