### RETURN ON RATE BASE COMPUTATION

1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

1998 Analytical Review DWCCA-6560-PJL

Dear Ms. Tomasek:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. As directed in the headnotes for the Mains schedule on page W-15, please explain how the mains reported as added during the year were financed.
2. As directed in the headnotes for the Water Operation & Maintenance Expenses schedule on page W-5, please explain the change in Account 682, Outside Services Employed when compared to the 1997 annual report.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege  
Financial Specialist  
Division of Water, Compliance, and Consumer Affairs

Response received 7/1/99.

- #1, "The watermains added in 1998 were added as part of a storm drainage project and were financed by the water utility."
- #2, "The primary cause for the reduction in 682, Outside Services, was the 1997 audit which was not completed and paid for until early 1999. The audit fee paid in 1997 for 1996 was \$3,050."
