Re: "2001" Analytical Review - DWCCA-4690-PJL

Dear Mr. Leege,

Below is the information you requested from our 2001 Analytical Review.

1. With regard to our new water service additions, we will be more careful in the future to document these additions in plant acct 345. We do not have many new homes being built in our small town, so we don't have very many new hookups. We will add these two additions from 1997 and 1998 to our "2002" Annual Report.

2. We just had B&D Meter Testing, test our 3" & 4" meters on June 26, 2002, we will watch more closely to comply with the PSC requirements.

Sincerely,

Brenda Black, Deputy Clerk

2001 Analytical Review DWCCA-4690-PJL

Dear Mrs. Wilkins:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2001 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1) With regard to our ongoing exchange of correspondence regarding the water services added in 1997 and 1998 for which there were no dollars added to plant account 345, there seems to be some confusion in terms of how to resolve the issue. We do expect that the utility books be adjusted for those items. Please explain when those adjustments were made or confirm that the 2002 annual report will reflect those adjustments.

2) Please review the meter testing requirements as stated in Wis. Admin. Code § PSC 185.76 which indicates that 3 and 4 inch meters be tested every

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. ## WATER OPERATING SECTION FOOTNOTES

---

### Water Operation & Maintenance Expenses (Page W-05)

Expenses that increased greater than 30%, increased due to a one-time maintenance project of the water tower.

---

### Meters (Page W-17)

The meters retired in 2000 and 2001 were replaced and stored where they are being tested. They have not been discarded, and therefore are not removed from the property and equipment asset categories.
