WATER OPERATING SECTION FOOTNOTES

Water Utility Plant in Service (Page W-08)

[1] - Services (Acct 345) has an adjustment of \$15,500 as a result of an omission on the 2000 PSC report. Services added and paid by a developer were inadvertently omitted on 2000 report. The correction was to be made on 2001 report per Pete Leege.

[2] - Services (Acct 345) with retirments of \$644 represents water services which had been discontinued in an earlier year but were not removed from the depreciation schedule. The retirements on the Water Services schedule are zero and are correct since these services were discontinued from a previous year. No additions or retirments of water services occured during the year 2001.

[3] - Meters (Acct 346) with retirements of \$4,396 represents meters which have been retired in previous years but were not removed from depreciation schedule till 2001. The meters schedule represents no retirements, which is correct.
