FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

FINANCIAL SECTION FOOTNOTES

Income Statement Account Details (Page F-02)

General footnotes

The adjustment to Miscellaneous credits to surplus (434) is due to a journal entry posted before the audit report was issued but after the PSC report was issued involving the general fund assuming water fund debt. The journal entry decreased accrued interest of the water fund by \$3,144 for the year ended 12/31/06.

Interest Accrued (Acct. 237) (Page F-18)

General footnotes

During 2006 after completion of the PSC report the general fund assumed water fund debt resulting in a decrease of accrued interest for the year ended 12/31/06 of \$3,144.(see F-2) Therefore the beginning balance in 2007 should have been \$6,150. The difference has been adjusted through the interest paid during year column to adjust ending accrued interest to actual blance for year ended 12/31/07.

Please explain amounts in Accounts 143, 145 and/or 233 in excess of \$5,000, providing a short list or detail using other than terms such as "other revenues" "general" "miscellaneous" or repeating the account title.
