

4004

**ANNUAL REPORT**

OF

Name: NELSON TELEPHONE COOPERATIVE

---

Principal Office: 318 3RD AVE W  
P.O. BOX 228  
DURAND, WI 54736-0228  
PO Box Zip Code: 54736

---

For the Year Ended: DECEMBER 31, 2005

---

TELECOMMUNICATIONS UTILITY  
TO  
PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854  
Madison, WI 53707-7854  
<http://psc.wi.gov>

*This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.*

## GENERAL RULES FOR REPORTING

1. The annual report due date is April 1 of the following year. If that date falls on a weekend or holiday, the annual report is due the following business day.
2. **Electronic filing via e-mail is required, unless additional provisional confidential treatment is desired.** Go to the Public Service Commission of Wisconsin's Web Page at <http://psc.wi.gov>, and select the appropriate program for Incumbent Local Exchange Carriers (LECs). If additional confidential treatment is desired, contact Christopher Larson at (608) 267-9508 or [christopher.larson@psc.state.wi.us](mailto:christopher.larson@psc.state.wi.us) for instructions.
3. LEC entities with no revenues for the report year are required to file a LEC annual report.
4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-116. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used. However, please show the exact name of the respondent in full on the Identification and Ownership page.
6. Wherever information is requested in a "note," please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
7. Numeric items are limited to digits (0-9). Do not type commas when entering numbers. A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
8. Report all dollar amounts to the nearest thousand dollars. (Example: \$130,000 should be reported as \$130.)
9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
11. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the "Individual or firm, if other than utility employee, preparing this report" portion of the Identification and Ownership schedule, which describes the nature and extent of work performed.
12. The LEC annual report program incorporates provisional confidentiality capability for selected items. These items vary from year to year and are based on the Commission's decision regarding confidential items in the annual report.

## GENERAL RULES FOR REPORTING

If additional provisional confidential treatment is desired, do not file the annual report electronically using the program's e-mail filing capabilities.

13. It is not necessary to manually or electronically "sign" the signature page. It is not necessary to file a hardcopy of the annual report with the Commission.
14. **Edit Check, Confidential Listing, Exported Annual Report, and Export Status Files; Filing the Completed Report:**

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrcs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

15. **Name Changes:**

If a name change (e.g., the new name, the date of the change, and the affected entities with their respective four-digit Commission identification numbers) is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI.

*These documents can be obtained by:*

1. Calling DFI at (608) 261-7577;
2. Contacting DFI on the web at <http://www.wdfi.org>; or
3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

**A name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.**

## **GENERAL RULES FOR REPORTING**

### **16. Changes to the Annual Report Subsequent to Filing:**

If making revisions to the report subsequent to an electronic filing (i.e., using the program's e-mail capabilities) with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 14. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

**ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS**

<b>Access Line</b>	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
<b>Analog Signal</b>	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
<b>Cellular System</b>	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
<b>Central Office</b>	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
<b>Centrex</b>	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
<b>Channel</b>	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
<b>Customer</b>	A person who uses a telephone as a subscriber.
<b>Digital Signal</b>	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
<b>Equal Access</b>	The ability of the subscriber to use any long distance service by dialing the same number of digits.
<b>Exchange</b>	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
<b>Extended Area Service (EAS)</b>	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
<b>Extended Community Calling (ECC)</b>	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
<b>Feature Group A</b>	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

**ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS**

<b>Feature Group B</b>	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
<b>Feature Group C</b>	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
<b>Feature Group D</b>	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
<b>FX-IN</b>	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
<b>FX-OUT</b>	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
<b>Host Switching System</b>	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
<b>Local Access Transport Area (LATA)</b>	A geographic area within which an operating company may offer its telecommunications services.
<b>Mobile Telephone</b>	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
<b>Paging</b>	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
<b>Pair</b>	Two wires of a single circuit.
<b>Pay Station</b>	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
<b>Private Line Service</b>	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
<b>Private Branch Exchange (PBX)</b>	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
<b>Radio Common Carrier (RCC)</b>	A company which furnishes public telecommunications service using one or more radio channels.
<b>Remote Switching Unit (RSU)</b>	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

**ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS**

<b>Route Miles</b>	Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of: <ol style="list-style-type: none"><li>1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.</li><li>2. One mile of a cross country route with any combination of outside plant facilities.</li><li>3. One mile of point-to-point microwave or radio link.</li><li>4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.</li><li>5. One mile of joint use line where the utility either owns the facility or leases space.</li></ol>
<b>Stand Alone Switch</b>	A central office switch which has no remote switching units (RSUs) subtending it.
<b>Trunk</b>	A communications path connecting two switching systems in the establishment of an end-to-end connection.
<b>Wide Area Telephone Service (WATS)</b>	Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.
<b>Wire Center</b>	The location of one or more local switching systems. A point at which customers' loops converge.

### AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

<b>Name of Affiliate (a)</b>	<b>Abbreviations (b)</b>	
Chippewa Valley Communications	CVC	1

### AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25 (,000) or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000 (,000), individual contracts or arrangements not exceeding \$100 (,000) may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

Particulars (a)	(b)	(c)	(d)	(e)

Total Dollar Activity (000's)	59			4
Percent of affiliate's business billed to all affiliated regulated utilities				5
If cost based, rate of return on equity or markup incorporated in billings				6
Footnotes				

**AFFILIATED ASSETS AND LIABILITIES**

This schedule should be used to report affiliated activity concerning balances at the end of the year. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "Other" for a particular account.

Name of Affiliate (a)	Account Number (b)	Balance EOY (000's) (c)	
Chippewa Valley Communications	1410	1,802	1

### SERVICE DATA

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.

### General Footnote

---

### Schedule Footnotes

---

### Schedule Line Footnotes

- 1) Reclassification of prior year balances
- 2) Reclassification of prior year balances
- 3) NECA settlements increased 33% this year due to cost study
- 4) LEC services billing revenue was overaccrued in 2004 and adjusted at the end of 2004.
- 5) We do not currently have any Ds-3 circuits at this time. We did not have voice grade at FOY.
- 6) Ameritech no longer offering service in our exchanges. Other carriers classified these calls differently.
