

4004

ANNUAL REPORT

OF

Name: BADGER TELECOM, LLC

Principal Office: 525 JUNCTION ROAD
MADISON, WI 53717

For the Year Ended: DECEMBER 31, 2006

TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854
Madison, WI 53707-7854
<http://psc.wi.gov>

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. The annual report due date is April 1 of the following year. If that date falls on a weekend or holiday, the annual report is due the following business day.
2. **Electronic filing via e-mail is required, unless additional provisional confidential treatment is desired.** Go to the Public Service Commission of Wisconsin's Web Page at <http://psc.wi.gov>, and select the appropriate program for Incumbent Local Exchange Carriers (LECs). If additional confidential treatment is desired, contact Christopher Larson at (608) 267-9508 or christopher.larson@psc.state.wi.us for instructions.
3. LEC entities with no revenues for the report year are required to file a LEC annual report.
4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-116. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses.
6. Wherever information is requested in a "note," please show that information in the space provided. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
7. Numeric items are limited to digits (0-9). Do not type commas when entering numbers. A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
8. Report all dollar amounts to the nearest thousand dollars. (Example: \$130,000 should be reported as \$130.)
9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
11. The LEC annual report program incorporates provisional confidentiality capability for selected items. These items vary from year to year and are based on the Commission's decision regarding confidential items in the annual report.

If additional provisional confidential treatment is desired, do not file the annual report electronically using the program's e-mail filing capabilities.
12. It is not necessary to manually or electronically "sign" the signature page. DO NOT file a hardcopy of the annual report with the Commission.
13. **Edit Check. Confidential Listing. Exported Annual Report. and Export Status Files:**

GENERAL RULES FOR REPORTING

Filing the Completed Report:

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrcs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

14. Name Changes:

If a name change (e.g., the new name, the date of the change, and the affected entities with their respective four-digit Commission identification numbers) is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI. *These documents can be obtained by:*

1. Calling DFI at (608) 261-7577;
2. Contacting DFI on the web at <http://www.wdfi.org>; or
3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

A name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.

15. Changes to the Annual Report Subsequent to Filing:

If making revisions to the report subsequent to an electronic filing (i.e., using the program's e-mail capabilities) with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 13. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.
Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified

GLOSSARY OF TERMS

interexchange carrier.

FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Pair	Two wires of a single circuit.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.
Route Miles	Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of: <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	A central office switch which has no remote switching units (RSUs) subtending it.
Trunk	A communications path connecting two switching systems in the establishment of an end-to-end connection.
Wide Area Telephone Service (WATS)	Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.
Wire Center	The location of one or more local switching systems. A point at which customers' loops converge.

INCOME STATEMENT - TOTAL COMPANY

Report all dollar amounts to the nearest thousand dollars. For operating expenses, Wisconsin Bell (utility 6720) and Verizon North-WI (utility 2180) should report total company expense dollars; other LECs should report net regulated expense dollars.

Particulars (a)	This Year (000's) (b)	Last Year (000's) (c)	
Operating Revenues			
Operating Revenues (5000-5300)	6,197	6,371	1
Total Operating Revenues	6,197	6,371	
Operating Expenses			
Plant Specific Operations Expenses (6110-6410)	727	558	2
Other Plant Nonspecific Operations Expenses (6510-6540)	578	561	3
Depreciation and Amortization Expense (6560)	1,226	1,158	4
Customer Operations Expense (6610-6620)	641	717	5
Corporate Operations Expense (6720-6790)	902	849	6
Other Operating Income and Expense (7100)	2	2	7
Operating Taxes (7200)	940	1,062	8
Total Operating Expenses	5,012	4,903	
Net Operating Income	1,185	1,468	
Other Income			
Nonoperating Income and Expense (7300)	1,330	224	9
Nonoperating Taxes (7400)	533	75	10
Interest and Related Items (7500)	1	85	11
Extraordinary Items (7600)	0	0	12
Nonregulated Net Income (7990)	16	(60)	13
Total Nonoperating Income	812	4	
Net Income	1,997	1,472	

ANNUAL REPORT NOTES AND CHANGES

1. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates. Provide details and dollar amounts for increases and decreases, respectively, by revenue category noted on Operating Revenues schedule.

None

-
2. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

None

ANNUAL REPORT NOTES AND CHANGES

3. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

TELEPHONE PLANT

Telephone plant is stated as the original cost of construction including capitalized costs such as taxes, pensions, and other fringe benefits.

DEPRECIATION

The company provides depreciation for financial reporting purposes using the straight-line method. Renewals and betterments of units of property are charged to telephone plant in service. The original cost of depreciable property retired, together with removal cost less any salvage realized, is charged to accumulated depreciation. Repairs and renewals of minor items of property are charged to maintenance expense. No gain or loss is recognized in connection with ordinary retirements of depreciable property.

REVENUES

Operating and nonoperating revenues are recognized when earned regardless of the period in which they are billed.

Compensation for all intrastate access service is received through tariffed access charges billed to the long distance carrier and retained by the company.

Compensation for interstate access services is received through tariffed access charges filed by the National Exchange Carrier Association (NECA) with the Federal Communications Commission (FCC) on behalf of the member companies. These access charges are billed by the company to the interstate long distance carrier, and pooled with like revenues from all NECA member companies.

PENSION

The company is a member of the Telephone and Data Systems, Inc. Employees' Pension Trust I. This qualified, noncontributory defined contribution pension plan covers substantially all company employees. Under this plan, pension benefits and costs are funded currently.

INCOME TAXES

The company is included in the TDS Consolidated federal income tax return. For financial reporting purposes, the company computes its federal income tax applying the statutory rate to all its taxable income.

The company uses the full-normalization method for all timing differences with the resulting book-tax differences being provisioned through the deferred tax accounts. Deferred income taxes resulting from accelerated depreciation used for income tax purposes had previously been provided through the depreciation accounts. Such deferred taxes are credited to income as the related timing differences reverse.

-
4. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None

ANNUAL REPORT NOTES AND CHANGES

5. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

The Company has no restrictions on retained earnings.

BALANCE SHEET - ASSETS

Particulars (a)	Balance--EOY	Balance--FOY (000's) (c)

Capital Stock (4510)	494	494	7
Additional Paid-in Capital (4520)	40	40	8
Treasury Stock (4530)	215	215	9
Other Capital (4540)	(227)	0	10
Retained Earnings (4550)	9,868	7,869	11
TOTAL STOCKHOLDERS' EQUITY	9,960	8,188	
TOTAL LIABILITIES AND OTHER CREDITS	11,856	10,174	

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Name of Affiliate (a)	Abbreviations (b)	
Central State Telephone Company, LLC	CENT ST	1
EastCoast Telecom, LLC	EAST	2
The Farmers Telephone Company, LLC	FARMERS	3
TDS Metrocom, LLC	METROCOM	4
Midway Telephone Company, LLC	MIDWAY	5

Waunakee Telephone Company, LLC	WAUN TEL	16

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25 (,000) or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000 (,000), individual contracts or arrangements not exceeding \$100 (,000) may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

Docket	Affiliate	Billed To or From	Cost Based (C)	Activity (000's)	% Billed to Regulated Utilities

SERVICE DATA

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.
