Re: 1997 Analytical Review DWCCA-0910-PJL

Dear Ms. Frank:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review of the Meters Schedule on page W-16, we noted that on our copy the end of year numbers for column (f) were reported in column (g) with column (f) being blank. We therefore do not have the number of meters tested. Please provide those numbers by meter size.
2. The Commission is now using a computerized system to build an annual report database. It is, therefore, important to have a complete and correct annual report. The following changes have been made in our copy of your annual report. Please confirm these changes or indicate the necessary corrections:

Page	Lines	Column	Reported As	Should Be
------	-------	--------	-------------	-----------

W-14	1	D & h	2,845	4,463*
W-14	2 & 6		Blank*	
W-14	7	D & h	174	14,745*
W-15	2 - 6	A C M		

\*Duplicates combined

We appreciate your cooperation in providing the above information. You did a good job completing your report, the commission appreciates receiving reports of this quality. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.
