1998 Analytical Review DWCCA-750-PJL

Dear Mr. Utecht:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

During our review, we noted that water treatment expense is reported in the Operation and Maintenance Expense schedule and water treatment plant dollars are reported in Account 332 in the Water Operating Plant in Service schedule. However, the Water Treatment Plant section of the Reservoirs, Standpipes & Water Treatment schedule is not completed. Please furnish this information.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege  
Financial Specialist  
Division of Water, Compliance, and Consumer Affairs
