1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include contributed plant in service, property held for future use, or construction work in progress with utility plant in service. These are not rate base components.

FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

Depreciation Expense on Meters Charged to Sewer has related fields in the Taxes schedule and Other Operating Revenues (Water) schedule. If amounts are reported in any one or two of these three fields, but not all three, please explain.

The Village passed a resolution to bring the tax equivalent to zero. Therefore there will not be a value in the related taxes field for an amount charged to the sewer department for taxes.

Taxes Accrued (Acct. 236) (Page F-16)

General footnotes

No taxes were charged to the sewer department because the board has elected to have the tax equivalent be zero.

Number of distribution valves operated during year:	7

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

For values that represent an increase or a decrease when compared to the previous year of greater than 30%, but not less \$2,000, please explain.

Repair of Water Plant (650) - Repair costs were higher last year because of three water main breaks during the year and also additional maintenance was performed under the new superintendent.

Property Tax Equivalent (Water) - Part 2 (Page W-07)

If Lower Tax Equivalent authorized by municipality is greater than or equal to zero, please explain.

On June 5, 2007, the Village passed Resolution 1-2007 establishing a new tax equivalent payment.

"Now therefore, be it resolved, by the Waldo Village Board of trustees that the tax equivalent payable by the Waldo Water and Sewer Utility to the Village of Waldo be reduced to zero".

Water Services (Page W-18)

If net additions are greater than zero, please explain financing by following criteria listed in schedule headnote No. 3.

The 1 - 1" copper service added was paid for by a customer and was put into service during 2007.

The 1 - 1" plastic service added was paid for by a customer and was put into service during 2007.

Cost used approximates actual.

Meters (Page W-19)

Ss. PSC 185.83(2) states "Station meters shall be maintained to ensure reasonable accuracy and shall have the accuracy checked at least once every 2 years." Are all station meters being tested every two years? Answer yes or no. If no, please explain.

No, not tested. The station meter is serviced and calibrated yearly per maintenance agreement with Energenecs.

Hydrants and Distribution System Valves (Page W-20)

General footnotes

There were not enough hydrants operated or distribution valves operated during the year because of a shortage of labor. The Utility plans to make sure the correct number of hydrants and distribution valves are operated in 2008.
